Trusted by professionals, appreciated in every bathroom

What began in 1885 as a family-owned copper-smith business has grown into an international brand synonymous with craftsmanship, innovation and sustainability. Always guided by customer needs and renowned for excellence in quality and design.

Our mission is clear: to create high-quality bathroom accessories with a thoughtful aesthetic, a distinctive design DNA and meticulous attention to every detail. We support architects, designers, installers and end users who strive for perfection and reliability in bathroom interiors.

Around the world, renowned hotels, luxury cruise ships and stylish residential bathrooms rely on Geesa. In environments where intensive use is the standard, our products prove their value: durable, ergonomic and always easy to install. Every design meets the most stringent requirements, because outstanding quality is not an option, it is our starting point. With a 15-year warranty, we proudly stand behind this quality.

15 YEARS
warranty

— In-house design and development

At Geesa, design stems from insight and expertise. With our own in-house design team, we manage the entire process, from insight and analysis to design and realisation. This enables us to guarantee consistency, quality and a look that is instantly recognisable: that is the Geesa design DNA.

Where expertise, design and dedication come together

— Designed for lasting performance

Professional quality

We carefully select strong, high-quality materials and finishes, such as stainless steel 304 and PVD, designed to withstand intensive daily use. Combined with thoughtfully engineered constructions, this results in accessories that retain both their functionality and appearance for years to come. With a 15-year warranty, we reinforce our commitment to quality and longevity.

Maintenance and replacement

For components subject to wear, we offer individually replaceable parts, allowing products to remain in use for longer. These components can be replaced easily without specialist knowledge. Thanks to a comprehensive range of spare parts, our products remain functional and aesthetically pleasing over the long term. Discover all spare parts on page 154.

Design that inspires for years to come

Our designs are based on timeless aesthetics and long-term availability. This ensures that accessories continue to complement existing bathroom interiors for years to come, without compromising on visual harmony or ease of use.

Circular disassembly

At the end of their service life, accessories can be easily disassembled, allowing materials to be separated for recycling. By limiting the use of composed materials, this process is simplified. Geesa packaging follows the same philosophy: made entirely from unprinted cardboard and therefore fully recyclable.

**EPD documentation available for a selection of products*

— Our premium finishes

Every design tells its own story through carefully selected materials, thoughtful details, and balanced combinations. With Geesa’s bathroom accessories, available in a range of high-quality finishes, you add depth, personality, and refinement to any space. The wide selection of colours, textures, and finishes offers creative freedom and makes it easy to maintain a consistent visual language throughout the entire interior concept. The finishes below are available from stock.

CHR	Chrome Article code (-02)	PSS	Polished stainless steel Article code (-02)		
BSS	Brushed stainless steel Article code (-05)	MB	Matt black Article code (-06)		Chrome / Black
BG	Brushed gold Article code (-07)	BBM	Brushed metal black Article code (-09)	BBZ	Brushed bronze Article code (-10)

This colour overview provides an indication. In reality, shades may vary slightly. For the most accurate representation, we recommend reviewing the actual colour samples or products.

Your partner in bathroom accessories for every project

Geesa supports projects from concept to completion with smart accessory solutions that seamlessly align with both design and execution. We work closely with architects and designers, who choose Geesa for its aesthetics, functionality and reliability. Thanks to our project expertise, technical knowledge and flexible approach, we ensure a smooth process and a successful end result.

Flexible custom solutions

Every project is unique. That is why we offer extensive customization options, ranging from adaptations of existing products to the development of entirely new solutions. Together, we translate your requirements into a tailored solution and support its implementation from concept to completion.

Perfect colour coordination

Colour consistency is essential to a cohesive design. With a broad colour palette, our accessories always complement the chosen style, materials and finishes. The Nemox collection is available in fifteen colours, six of which are available from stock. Other colours are available on request.

Efficient project delivery

Our delivery solutions are designed around the realities of project execution. Products can be supplied in dedicated project packaging, clearly sorted by room or application. This saves time on site and helps reduce unnecessary waste.

On our Geesa website, you will find comprehensive product information, including product datasheets and 3D files.

Star of the Seas | Royal Caribbean © MEYER TURKU

— References

Our passion for quality has resulted in a strong international presence across a wide range of projects, from large-scale residential developments to luxury hotels and cruise ships. Today, our products are installed in more than 1,100 hotels and cruise ships worldwide. Major chains such as Holiday Inn, InterContinental and Radisson Blu (SAS) have selected Geesa as a preferred supplier. Vessels such as the Star of the Seas, with nearly 4,000 cabins and one of the largest cruise ships in the world, are fully equipped with Geesa accessories.

NEW

Suite

What makes Suite unique lies not in bold or expressive shapes, but in the harmony of its design. Every element has been reduced to its essence: clean lines, a gently rounded primary form, and a calm aesthetic that integrates effortlessly into a wide range of bathroom concepts. The slim wall plate of just 6 mm emphasises its architectural character, creating a refined and subtle presence on the wall. Visually lightweight, yet structurally solid. Designed for application in professional environments.

— Shift

A collection that seamlessly connects form and interior. Shift embodies iconic design where strength and elegance converge. Crafted from premium materials and available in a palette of refined finishes, each element becomes more than an accessory: a sculptural jewel on the wall that defines and enhances the space.

Material

Brass, Stainless steel 304

Finishes

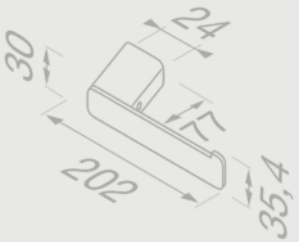

The hook forms the foundation of the collection; an iconic monoshape, subtly shifted upward by 20 degrees to create a hook. This distinctive Shift form runs as a design language throughout the entire collection. The soft, rounded edges give each element a friendly, refined look that perfectly complements the bathroom's atmosphere.

Modular design

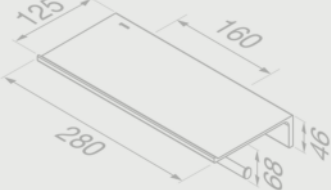

With Leev's shelves, you'll find the perfect harmony between functionality and aesthetics. Available in three sizes – 40 cm, 60 cm, and 80 cm – they offer maximum design freedom for any well-designed toilet or bathroom space. Thanks to the modular system, the separately available accessories can easily slide under the shelf. This way, you effortlessly combine different elements into one sleek whole, without visible fittings or complex installation.

— Mounting heights

Our accessories are designed to last a lifetime. They form the perfect balance between quality, functionality and design. In order to optimally enjoy our products, we provide a mounting height advice. The sizes and heights indicated are based on an average length of 1.78 m.

Glass mounting

It is possible to mount accessories from the Nemox collection on glass. In situations where the shower wall is immediately a partition with the toilet, this can offer a solution. Read more on our website: www.geesa.com/en/assembly-maintenance-tips/
